Instructions for volunteer callers:

- Please introduce yourself as a volunteer from Sunnyvale Community Services.
- Explain briefly that you have been asked to contact some of the agency's clients to ask questions about the service(s) they have received.
- The survey should take less than five minutes. If this is an inconvenient time, find out what time might be better for a call.
- Explain that there are no right or wrong answers. We just want to evaluate the services provided in order to make necessary improvements. Answers will in no way affect services from SCS. (Use other side of paper if more space is needed.)

 - eye glasses
 - appliance (kitchen)

- Referral to furniture program

3. Was that help sufficient to address the problem(s) then? Do you still have the problem now?

- Yes, help addressed the problem; problem resolved
 - Help was fast—no red tape.
 - Much faster help than I thought—thought it would take all day.
 - Whoever answered the phone to me what I needed to bring along so I didn't waste a trip.
 - The caseworker was very friendly, made me feel comfortable, not like other places.
 - The caseworker got me the help I needed but then told me about other programs that really helped me (food programs and shoes).
 - I couldn't believe that I could leave with the check in my hand.
 - I got a bicycle helmet for my sons. I know it's the law, but I couldn't afford to buy them.
 - My kids go through shoes so fast—those vouchers are great.
 - They told me where to go for help.
 - They got my family into a shelter and away from my husband.
 - You're giving more food out than before. That's great.
 - Thanks for letting my neighbor pick up my food. We take turns picking up and babysitting each others kids.

- Yes, help addressed the problem, but it is "still tough"
 - That problem was fixed, but it is a struggle every month to make ends meet.
 - My job is a temp one. I want a regular job, but that is harder to get. Until I do, I will still have the same problems.
 - My child is sick, so I will keep having this problem—I have no insurance and can't pay the bills. I have to miss work to help her.
 - Getting benefits from disabilities is tougher than anything.
 - I've had three jobs, but none provide benefits.
- No, help insufficient to address problem
 - They shouldn't have needed all the paperwork they asked for. It was none of their business. I should have gotten help anyway without that paper work.
 - They wouldn't help me because they helped me several times before. That's not right
 - They wouldn't help me because I didn't have enough income to pay next month's bills (monthly income less than rent).
 - He (caseworker) "couldn't speak English good", didn't understand what I needed, and wouldn't help me.
 - I needed food all month, and they only gave me enough for 4 days.
 - I'm a Sunnyvale resident and tax payer, and they should have helped me.
 - I gave to United Way for many years, so I should get the help I wanted. I'll call UW.
 - They only help Asians (or Hispanics). That's discrimination.
